Hi Angela, we heard back from the field team about the Private Well hits yesterday. See his response below.

Let me know if you have further questions.

Subject: RE: Well Type Question

Hey David,

At this point, we are only testing drinking wells; however, I'm not convinced that is so since we are not talking to the homeowners (NM state is doing that). But, they are telling us they are all drinking.

Let me know if you need anything else.

Thanks,

Daniel

Subject: Well Type Question

Morning,

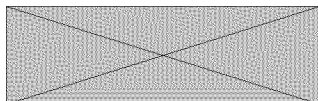

I'm working here in the R6 REOC doing data management for the Gold King response.

Was seeing if you could provide us with some information...We have preliminary results in that have exceedances for the following sample locations:

- TA-A003-150810-21
- TB-B003-150810-21
- TB-B004-150810-21

We are trying to identify the **well type** of these samples. Can you tell me the well type of these wells (**irrigation** or **drinking water**)?

Much appreciated,

David Cook
